

ASSYNT ANGLING CLUB

Lochinver, County of Sutherland

Assynt Angling Club contains thirty lochs, which are restocked regularly and fertilised, where necessary. The policy of the Club is to plough back all money taken by the sale of permits into loch improvement in order to make more and better fishing available to residents and visitors alike. Charges are moderate and permits are freely available to all visitors to the district. Fishing is good throughout the season from May to September.
